

Xerox® Color J75 Press

Xerox® Color J75 Press
Produce high-value jobs and
highly satisfied customers.

Growing your business continues to be a challenge. Doesn't it?

It always has been. But let's talk about what could make it easier.

Every day, you face more pressure to offer more—more complex jobs, more high-value solutions, more value and all at faster turnaround times. Achieve it, and business growth isn't as complicated as it has always seemed to be. Easier said than done? Not anymore.

The Xerox® Color J75 Press makes delivering for your customers easier than ever. It automates great color. It runs heavyweight stocks at full rated speed. It provides scalable feeding and finishing solutions that produce a range of high-value applications. And it offers workflow

power and flexibility so it all integrates with your offset business and complements your existing workflow.

If your business is ready for growth, then the Xerox® Color J75 Press is the powerful solution you've been waiting for.

Capabilities that Move Your Business Forward

As you move into higher monthly print volumes and heavier weighted paper stocks, the Xerox® Color J75 Press moves you to the head of the pack.

Producing jobs on stocks up to 300 gsm (110 lb cover) expands your creativity without slowing your productivity. Do more great work faster, leveraging maximum print speed with excellent print quality.

Run heavyweight stocks and meet tight timelines.

There's no doubt that heavyweight stocks make a big impression in applications ranging from business cards to brochures. The Xerox® Color J75 Press provides automatic perfecting on heavyweight stocks up to 300 gsm (110 lb cover) and delivers more productivity and more flexibility to take on demanding jobs without manual intervention. You get the same exceptional image quality across heavyweight and lighter weight stocks so you can be confident that prints look the way you want them.

Greater Reliability with Remote Services

A suite of Remote Services increases reliability, uptime and productivity—making it easier for us to help you make your business stronger. Remote Services integrates systems and tools, and couples them with highly skilled Xerox support teams to provide proactive problem resolution and a robust underlying knowledge of your needs. Remote Services:

- Transmit machine data to provide preventive maintenance, predict machine failure and reduce the time to fix problems.
- Monitor supplies and consumable (such as Dry Ink) levels and automatically replenish them, saving time and making sure you have what you need to keep printing.
- Automatically report billing meters, saving time and improving accuracy.

Specialty media is one of our specialties.

To take full advantage of the Xerox® Color J75 Press's exceptional media latitude, Xerox offers specialty media for a wide variety of custom applications such as Premium Never Tear synthetics, DocuMagnets and more. And with Xerox® specialty media, you can bring new life to existing applications or expand your offerings.

Adding creative, personalized content to heavyweight specialty stock gives you an unbeatable combination that creates the type of high-value applications that deliver the ROI your customers expect.

Control quality and save time with Simple Image Quality Adjustment (SIQA).

The jobs your customers demand require excellent alignment and registration. And the Xerox® Color J75 Press provides exceptional control over both with the Simple Image Quality Adjustment toolset. But that power doesn't come at the cost of simplicity. SIQA gives you automated registration control, assuring that your customers' jobs meet the most exacting standards. And SIQA's SMILE correction process lets you adjust density uniformity, giving accurate color edge to edge, page to page.

Advanced scanning adds to your capabilities.

The scanner on the Xerox® Color J75 Press gives you new ways to create and collaborate. Scanning options, such as to scan to email, give your customers instant access to digital proofs. You can also walk up and easily archive hard copy or create booklets in minutes. Automated duplex scanning at a resolution of 600 x 600 dpi and copying at up to 76 ppm and at 2400 x 2400 dpi delivers great color with ease—all at speeds up to 200 ipm. It can even handle larger paper sizes up to 11" x 17", saving you the time and effort of multiple scans for a single oversize document or image.

Multiply your productivity and your profit.

Beyond the tremendous productivity that is built into the Xerox® Color J75 Press, we offer a range of solutions that allow you to produce the highest-value jobs and achieve the highest levels of profit.

Productivity Apps for Unparalleled Efficiency

We offer FreeFlow® software solutions that increase your capabilities right out of the box and integrate into your workflow, regardless of which color server you use. They come with analyst support to get you started and assist you with ready-made templates for your applications. In the end, you have the tools and the training to be successful—immediately.

- 1 **VI on the Fly**—Versatile templates and workflow to produce personalized business cards, postcards and posters.
- 2 **Set Up and Go**—Simplified job preparation and imposition templates to create calendars, booklets and more.
- 3 **One Touch**—Automated workflows ready to go for producing postcards, business cards, booklets and calendars.
- 4 **Book It!**—Pre-press automation developed specifically to simplify book production.

Higher Value Jobs through Personalization

One of the things that undeniably drives up the value of the applications you provide to your customers, and they provide to theirs, is personalization. A host of offerings, from our own Xerox® Variable Information Suite and XMPie® to a range of business partner solutions, give you a distinct advantage in an increasingly competitive marketplace. Whether you are new to VDP or are a seasoned pro, we give you a way to produce everything from simple name personalization to ROI focused cross-media campaigns.

Personalized jobs cut through the clutter, get more attention, drive up response rates and information retention, and result in higher profits for the organization that uses and the partner that produces them. Offset can't do it. Neither can many competitive digital printing solutions. When you can, you have a real difference that can grow your business.

Feeding and Finishing Capabilities that Grow with Your Business

Productivity from start to finish. The Xerox® Color J75 Press gives you the choices you need to make anything from coated brochures, folded newsletters, finished presentations and full bleed booklets. And do it all with the productivity that can strengthen your bottom-line and grow your business.

Feeders and Finishers

- 1 Oversized High-Capacity Feeder:** Adds capacity as well as up to two additional media selection points for large and heavyweight media and high-value applications. Available in 1 and 2 tray configurations.
- 2 GBC® AdvancedPunch:** Lets you create professionally bound documents in-house by combining printing, punching and collating into one convenient step.
- 3 High Capacity Stacker*:** 5,000 sheet stacking for long production runs.

* Interface module required.

- 4 Standard and Booklet Maker Finisher:** This finishing module enables coated booklets, brochures and bi-fold mailers as well as stacking, stapling and hole punching. It also includes an interposer input tray. Even more versatility can be obtained with the addition of the optional tri-fold, z-fold and tabloid z-fold module for this finisher.
- 5 Xerox® SquareFold® Trimmer Module:** Enhances the power of the Standard Finisher and Booklet Maker with the ability to adjust face trimming and produce a squared spine on a booklet for a perfect bound-like appearance.
- 6 The Xerox® 2-Knife Trimmer Module:** Provides a head and foot trim designed to work in combination with the Xerox® SquareFold® Trimmer Module. This inline solution produces professional-looking full-bleed booklets by trimming all three sides.

Adding the perfect finish to any creative idea is easy with a wide variety of options.

Print Servers that Produce More Work with an Easier Workflow

We offer a choice of print servers, so you're sure to find one that fits your workflow. They all put a variety of color tools, workflow capabilities, processing speed and sophisticated color management controls at your fingertips.

Color Workflow Software

Each server is designed to meet a specific set of workflow and application requirements. Your Xerox representative will help you choose the one that best suits your needs.

Xerox® FreeFlow® Print Server

Xerox® EX Print Server,
Powered by Fiery®

* Stand is optional

Adobe® PDF Print Engine (APPE)

Supported by the Xerox® FreeFlow® and Xerox® EX Print Servers.

Before

Transparency handling

After

Before

Spot color callouts

After

The Adobe PDF Print Engine—or APPE—is the gold standard in PDF processing, producing PDF files that flow through your shop with a minimum of intervention. No more transparency problems. No more color matching challenges. Instead, you will see faster turnarounds. More accurate results—and more returning customers.
